Discussion summary:
We set up each of our Eclipse IDE's to connect to Harman's GitHub repository for the future project. We're using the EGit software as our tool to make our commits to GitHub. In the beginning of our meeting, we briefly discussed who would be the facilitator and the minutes taker this week. We also decided to have our weekly meetings on Thursdays in the Library building. As well, we exchanged phone numbers to keep in touch with discussing project details if we need to.
